

GAS LIFT BELLOWS

5000psi | True Modeling | Valve Rebuilding | Testing | FEA

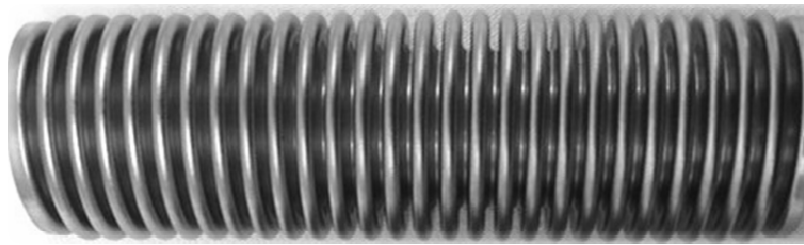

After many years of design, fabrication, continuous improvements & repetitive usage, Duraflex, Inc.'s **Gas Lift Bellows & Bellows Services** are now commodity items. Quality is paramount! Our high tech products are engineered for confidence & designed to perform by an experienced team of professionals following stringent procedures upheld by AS9100D, ISO 9001:2015 & MIL-Q standards.

Unique Features

- 5000 psi *Highest in industry!*
- Natural Gas Processing
- For Heavy Crude
- True Modeling / Simulations *For each application!*
- Valve Rebuilding / Recertifying

Duraflex, Inc. **Gas Lift Bellows** acts as the pressurized accumulator used to operate the valve & are ideal for both standard to high pressure applications in the oil & gas industry. The metal bellows regulates movement & vibration within the valve. Depending on the specifications, Duraflex, Inc. will design a customized precision hydroformed or edge-welded metal bellows to meet your needs. All of Duraflex, Inc.'s high tech bellows components ensure the very best performance ratings in the industry. Our Gas Lift Bellows are engineered specifically to endure the high temperatures, pressures & corrosive materials related with the industry.

Markets | Applications

- Oil Exploration
- Natural Gas Processing

■ Duraflex, Inc. demands quality in all of our products! Each **Gas Lift Bellows** is tested & inspected to be free of defects.

■ Every **Gas Lift Bellows** is life & leak tested & to 1x1—9He cc/sec 2.

Quality

- 100% Tested
- 100% Inspected
- 100% Defect Free

Services

- Analyses
 - Assembly
 - Engineering Design/Redesign
 - Fabrication
 - FEA
 - Machining
 - Simulation Modeling
 - Testing
 - Welding
- A Single Source Solution!*

Welding Certifications

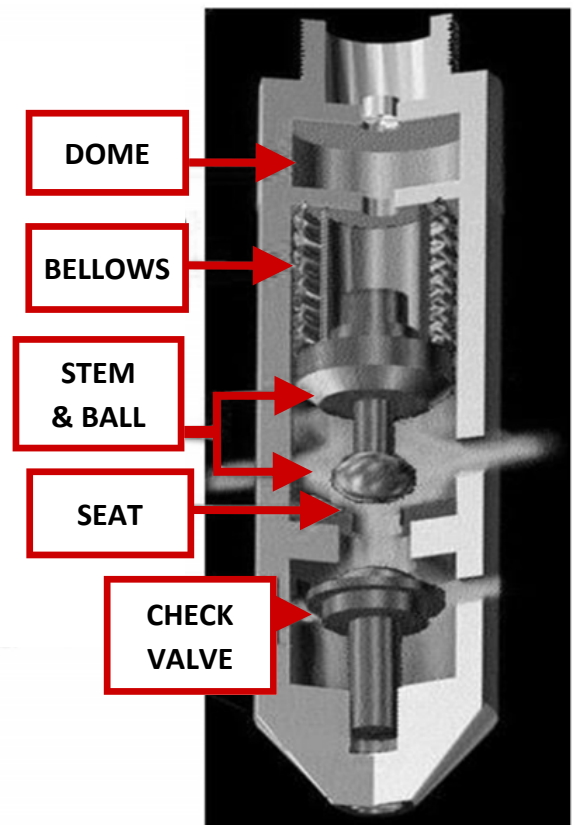

- ASME
- AWS *Brazing Available!*
- MIL

Fits Valve Sizes

Materials

- Inconel 600, 625, 718
- Incoloy 825
- Hastelloy C, C22, C276
- Monel 400
- Titanium Gr I, II

Duraflex, Inc. Bellows

- Hydroformed
- Multi-ply
- Edge-welded
- Nested
